# WI-PS526GH
PoE Switch

WI-PS205H | WI-PS210H | WI-PS518GH | WI-PS526GH

Overview

Wi-Tek's Economic 802.3af/at PoE Switch Series offers a choice of 4/8/16/24 ports, available in both 100Mbps and 1000Mbps speeds. Break free from PoE distance limitations! Wi-Tek provides a cost-effective PoE solution, empowering your CCTV, Access Point, and other IP-based devices up to 250m away. Most robust features like Extend Mode, PoE Watchdog Function, Port Isolation, provide a lot of value for basic networking needs, creating a versatile and reliable surveillance network to grow your business.

Features

PoE 250m Long Distance to Extend Network

DIP switch provides Extend Mode. All PoE ports can transmit data and power up to 250 meters. No further hardware or configuration is necessary, easy-to-use and cost-saving. Perfect for surveillance camera deployment in large areas.

Smart PoE Watchdog to Reboot Camera Automatically

All PoE ports enable PoE watchdog function, which can detect and reboot the offline compliant PoE powered devices.

Port Isolation to Prevent Broadcast Storm

With VLAN Mode, all PoE ports only can communicate with uplink ports. Avoid data leakage between each port and prevent broadcast storm from disabling network.

Double Uplink to Eliminate the Bandwidth Limit

Uplink ports superficially resembles any other normal port on a switch or hub. Additionally, connecting the uplink port on one switch to the normal port on another switch cab helps expand the size of the network.

DIP – Data Optimization

Default: The transmission distance of PoE port can be up to 100m with 100Mbps.
VLAN: Enable isolation between all downstream ports, while maintaining data communication with the upstream port, effectively preventing broadcast storms.
Extend: Extend the power supply and network transmission distance of PoE ports from the standard 100m to an impressive 250m, though with a reduced port rate of 10Mbps. Elevate your networking experience with enhanced flexibility and efficiency.
CCTV: Extend your network up to 250 meters long distance with VLAN function.

Specifications
